Sawadee TAX · Growth guide

Growth guide — staff, branches, company

Bigger business, same books. Switch features on when you need them.

1. **When you hire**
   Payroll, social security, withholding (PND 1) and payslips on one screen. Roster photos and attendance PDFs are Premium.

2. **Team and permissions**
   Invite staff and let them see only their work. Owners decide which screens admins see.

3. **When you add branches**
   See each branch's books and sales separately and compare them (Basic up to 2, Premium up to 10).

4. **Stock and products**
   Stock and margin per product, POS sales by product, goods in from receipts, the goods and raw materials report.

5. **Money flow**
   Bank matching, staff expense claims, quotations and invoices, money to come in.

6. **When you incorporate**
   The Business plan adds the automatic journal, statements, CIT figures and the audit pack.

- ✓ Turn on only the screens you need; move up a plan when you need to.
- ✓ Not sure which plan fits? We'll help in a free consultation.
- ✓ See 'For companies' for the company features.

ⓘ Sawadee TAX helps you keep the books and prepare filings. Check what you file with your accountant.
